About

Dr Paul Stickler is a distinguished speaker, historian, and former detective, specialising in historical murder investigations across 19th and 20th century Britain. Combining his professional detective experience with rigorous academic research, Dr Stickler brings forensic precision to uncovering forgotten crimes. He offers expert commentary for television, film, radio, and live events, engaging audiences with compelling storytelling grounded in original archival evidence.

Headshots

Approved Biography

Dr Paul Stickler is a forensic historian and speaker whose work delves into Britain's most intriguing and overlooked historical murder cases. With a career that spans professional detective work and academic research, he uniquely blends investigative insight with scholarly rigour. Dr Stickler regularly consults for major UK broadcasters and contributes to documentaries and media productions exploring true crime history. His presentations bring forgotten stories back to life through detailed analysis of court files, police reports, and period media, providing audiences with both gripping narratives and deeper context.

Approved Blurb for Use

Dr Paul Stickler is a forensic historian and speaker specialising in historical murder investigations. With a background as a professional detective and academic researcher, he offers expert analysis for television and film, and captivates audiences with talks based on original archival research into Britain's forgotten crimes.
